

6TH INTERNATIONAL CONFERENCE ON RAILWAY STATIONS
Madrid 2017

TRADE EXHIBITION AND SPONSORING OPPORTUNITIES

The 6th NextStation Conference will be a privileged venue for all companies interested in finding new business opportunities in the railway station sector at the global level: products, services, etc. The trade exhibition will take place alongside the rooms where the opening ceremony, round tables, parallel sessions and the closing session will be held.

Do not miss the opportunity to be part of this event! There are several options for sponsorship and exhibition that will surely suit your requirements.

The sponsorship is organized in three categories: Platinum, Gold and Silver, with different privileges and benefits. For more information: www.nextstation2017.com

6TH INTERNATIONAL CONFERENCE ON RAILWAY STATIONS

SMART STATIONS IN SMART CITIES

Madrid 2017 #NEXTSTATION2017

19 - 21 October

www.nextstation2017.com

UNDER THE HIGH PATRONAGE OF

ORGANISERS

THE 6TH INTERNATIONAL CONFERENCE ON RAILWAY STATIONS

Madrid, 19 - 21 October 2017

Following the successful editions held in Rome (2005), Paris (2007), Brussels (2011), Moscow (2013), and Marrakech (2015), the 6th NEXTSTATION International Conference on Railway Stations will take place in Madrid, Spain, from 19 to 21 October 2017. This high-profile global railway event on the themes of station development and operations, will be hosted by the Spanish Rail Infrastructure Manager, Adif, together with the International Union of Railways, UIC.

NEXTSTATION 2017 will be dedicated to the theme "Smart Stations in Smart Cities". Focusing on digitalization, this international event will also provide a unique opportunity for high-level speakers and panelists to address all strategic issues related to the creation, development and operation of railway stations, such as project development and financing, station management, station and urban planning, the sustainable, eco-friendly railway station, facilities and design, commercial use of station space and services, multimodality, accessibility and security.

Following its five previous editions, NEXTSTATION has become a benchmark event, a privileged venue for sharing information and experiences on the digitalization processes, concerning the development and operation of stations across the world. Developing a new generation of railway stations that meet the needs of information and mobility for travellers – whilst respecting the aims of sustainable development – is a strategic goal for all UIC Members.

THE NEXTSTATION HONORARY COMMITTEE

Mr. Iñigo de la Serna
Minister of Public Works and Transport of Spain

Mr. Renato Mazzoncini
CEO of Italian Railways, FS
UIC Chairman

Mr. Bernard Guillemon
CEO of BLS
Chairman of UIC Europe

THE NEXTSTATION STEERING COMMITTEE

Mr. Juan Bravo Rivera
President of Adif

Mr. Jean-Pierre Loubinoux
UIC Director-General

PRELIMINARY PROGRAMME

The NEXTSTATION programme will include plenary sessions (opening and closing ceremonies), 2 round tables and 8 parallel sessions. A programme of technical and cultural visits will conclude the Conference. The main themes of the parallel sessions are the following:

- Security and privacy
- Intelligent facility management
- Accessibility improvement in information era
- New business models in smart stations
- Solutions for integrated mobility
- Innovative management
- Smart design
- New services for customers: practical cases

16.00	Closing ceremony
17.00	End of the Conference

Saturday 21 October 2017

TECHNICAL AND CULTURAL VISITS

Atocha Station in Madrid

It is Spain's main intermodal station, providing Commuter, Long and Medium Distance services as well as High Speed services.

Atocha was recently refurbished and enlarged to ensure more efficient High Speed arrivals and departures.

Atocha Station hosts one of Spain's main traffic control centres, a strategic technical element that is a showcase of Adif's technological capacities.

Málaga

In this beautiful southern city, located 2 hours 30 minutes away from Madrid by High Speed train, Adif manages one of the main stations in the country, Málaga Maria Zambrano, and the Vialia PPP project, one of the most successful examples of the combination of railway and commercial use of stations.

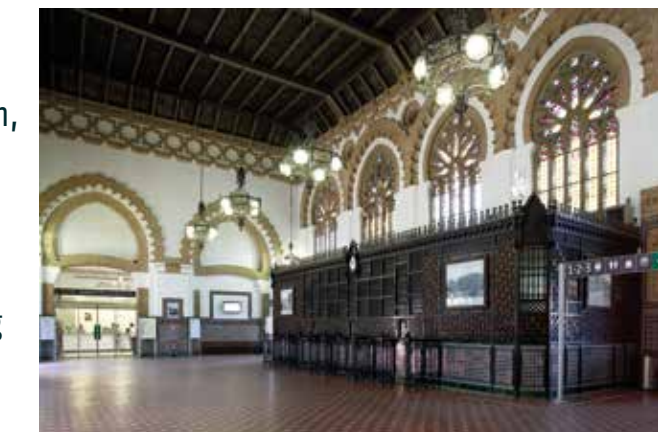

Málaga is also the capital of the world-famous Costa del Sol.

Toledo

This medieval city, located only 30 minutes away from Madrid, can also be reached by High Speed train. The station, built in 1919, is an architectural jewel with Moorish influence which is part of Spain's cultural heritage.

Toledo itself is a must-see place in Spain, with its finely preserved religious buildings and narrow streets, combining a rich, centuries-old cultural and artistic legacy.

VENUE AND ACCOMMODATION

The venue is the 5 stars Eurostars Madrid Tower hotel, located close to Chamartin Station and in the new financial district of Spain's capital.

The Eurostars Madrid Tower hotel occupies the first 31 floors of one of the newest skyscrapers in Madrid, and its large and highly functional facilities and meeting rooms fit perfectly the NEXTSTATION Conference. (www.eurostarsmadridtower.com)

You can book your hotel room at a special rate via the website: www.nextstation2017.com/

Other hotels are in the surrounding area of the venue:

- WeAre Chamartin www.weare-chamartin.com
